A pink-collar worker refers to someone working in the care-oriented career field or in jobs historically considered to be women's work. This may include jobs in the beauty industry, nursing, teaching, secretarial work, or child care. While these jobs may also be filled by men, they are typically female-dominated and may pay significantly less than white-collar or blue-collar jobs.

Genetic engineering is a process that alters the genetic structure of an organism by either removing or introducing DNA. Unlike traditional animal and plant breeding, which involves doing multiple crosses and then selecting for the organism with the desired phenotype, genetic engineering takes the gene directly from one organism and inserts it in the other.
