A space elevator is a proposed type of planet-to-space transportation system. The main component would be a cable (also called a tether) anchored to the surface and extending into space. The design would permit vehicles to travel along the cable from a planetary surface, such as the Earth's, directly into space or orbit, without the use of large rockets.

The variety and availability of online high school diploma programs can be both annoying and frustrating. Diplomas from quality online high schools are academically equivalent to those earned in the traditional high school setting, and should be recognized as such by potential employers and colleges and universities.

(Click here for bottom) D d D A programming language conceived as and unlikely to be a successor to C++.. Michael Neumann's extensive list of sample short programs in many other programming languages also lists many wonderful features of this language.. d deci-, metric prefix from Latin, meaning a tenth. E.g., 10 dL = 1 L. Easily confused with D, which partly explains the latter's rarity.
