A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

History of virtual learning environments - Wikipedia

Robotics Academy ROBOTC VEX Robotics Certification. Carnegie Mellon's Robotics Academy in cooperation with staff from the National Robotics Engineering Center, robotic and automation businesses, VEX Robotics, and educators nationally have developed a certification program designed to certify that teachers and students are able to build, troubleshoot, and program robots.
