

Cheng Field Wave Electromagnetics Solution 2

Cheng Field Wave Electromagnetics Solution

Terminology. The analogous quantity for a plane wave travelling through a dielectric medium is called the intrinsic impedance of the medium, and designated η (). Hence Z_0 is sometimes referred to as the intrinsic impedance of free space, and given the symbol η_0 . It has numerous other synonyms, including: wave impedance of free space,; the vacuum impedance, ...

Impedance of free space - Wikipedia

The boundary element method (BEM) is a numerical computational method of solving linear partial differential equations which have been formulated as integral equations (i.e. in boundary integral form). including fluid mechanics, acoustics, electromagnetics (Method of Moments), fracture mechanics, and contact mechanics.

Boundary element method - Wikipedia

Research We cover several research themes related to modern electromagnetics. We are keen to understand and discover fundamental limits of electromagnetic structures such as electrically small radiators, ultra thin absorbers, dynamic control of antenna beams and tunable/smart materials.

In Engineering Mathematics II, we focus on "Multivariable Calculus and Field Theory", "Fourier Methods and Partial Differential Equations", and "Complex Variable Theory" to cover the rationale and of particular the engineering applications. The detailed schedule of this semester is listed below:
