This lab uses the glenco simulator, Virtual Lab: Population Biology to collect data on two populations of paramecium, *P. caudatum* and *P. aurelia*.. Though the simulator doesn't expressly say it, the activity illustrates the competitive exclusion principle by showing students how each population behaves when grown alone or when mixed together.

Virtual Lab: Population Biology - The Biology Corner

The animal cell coloring worksheet has been used with freshman biology for years as a supplemental way to learn the parts of the cell. This is often assigned as a review or reinforcement exercise. Intro biology classes have unique challenges for me, one of which being that they don't have a textbook.

Learn the Animal Cell - biologycorner.com

Great online learning resource for children looking to improve math, science, social studies and language arts skills through hands on games and activities. Children can also learn easy and fun cooking recipes and many other fun crafts.

Habitat Animal Printouts. The Earth has many different environments, varying in temperature, moisture, light, and many other factors. Each of these habitats has distinct life forms living in it, forming complex communities of interdependent organisms. A complex community of plants and animals in a region and a climate is called a biome.
