Most coaching books start with a discussion of the importance of creating a coaching philosophy and follow up with a section on creating goals.

### **Recreation and Leisure - Human Kinetics**

The human leg, in the general word sense, is the entire lower limb of the human body, including the foot, thigh and even the hip or gluteal region. However, the definition in human anatomy refers only to the section of the lower limb extending from the knee to the ankle, also known as the crus. Legs are used for standing, and all forms of locomotion including recreational such as dancing, and ...
