Aviation Finance Special Report: Ireland: International Aviation Finance Hub. Our Special Report examines one of the most interesting jurisdictions in the world as a centre of aircraft financing - the Republic of Ireland. Its significance lies in its scale in the global financing of aviation, second only to the United States in aircraft leasing and trading activity.

A swap is a derivative in which two counterparties exchange cash flows of one party's financial

instrument for those of the other party's financial instrument. The benefits in question depend on the type of financial instruments involved. For example, in the case of a swap involving two bonds, the benefits in question can be the periodic interest payments associated with such bonds.
