

## *Lesson 23 Angle Relationships Answer Key*

### **Lesson 23 Angle Relationships Answer**

The answer is yes, the triangles are congruent. You know this because of the side-angle-side theorem. Since two sides and the included angle are congruent, the triangles are congruent.

### **Included Angle of a Triangle: Definition & Overview ...**

There are five major types of angle pairs in geometry. In this lesson, you'll explore the different types of angles and learn the rules of measuring those angles.
