Economics 102: Macroeconomics - Practice Test Questions ...

Macroeconomics (from the Greek prefix makro-meaning "large" + economics) is a branch of economics dealing with the performance, structure, behavior, and decision-making of an economy as a whole. This includes regional, national, and global economies. Macroeconomists study aggregated indicators such as GDP, unemployment rates, national income, price indices, and the interrelations among the ...

Macroeconomics Old Tests - Austin Community College

The field of economics known as macroeconomics focuses on the behaviors of a national economy, or a regional economy, as a whole. Macroeconomics is a very general field that concerns itself primarily with large scale indicators, such as unemployment rates, and with the creation of models meant to explain relationships between those indicators. It is also considered the complement to ...
