INTRODUCING THE INFECTIOUS DISEASES Since ancient times, physicians have known that many diseases are transmissible, but because of the subtle and idiosyncratic ways in which infections seem to travel, the early-modern physicians thought the responsible particles must be much smaller than our cells (correct) and closer in size to atoms (not correct).

INFECTIOUS DISEASES - pathguy.com

Mouth cancer is a major neoplasm worldwide and theoretically should be largely preventable or detectable at an early stage. Approximately 90% of oral cancers are squamous cell carcinoma (SCC), which is seen typically on the lip or lateral part of the tongue usually as a lump or ulcer that is white, red, or mixed white and red.
