"Francis Crick and I made the discovery of the century, that was pretty clear. We made it, and I guess time has justified people paying all this respect to me in spite of my bad manners." James Watson was only 25 years old when he and his older colleague, Francis Crick, discovered the structure of deoxyribonucleic acid (DNA) the building block of all life on Earth.

Space colonization (also called space settlement, or extraterrestrial colonization) is permanent human habitation off the planet Earth.. Many arguments have been made for and against space colonization. The two most common in favor of colonization are survival of human civilization and the biosphere in the event of a planetary-scale disaster (natural or man-made), and the availability of ...
